
Angel K. Will

SUMMARY

I absolutely love the art and science of **creating, developing and communicating** a specific message for a target audience. And that's exactly what I get to do on a daily basis as a **graphic design contractor.** I assist companies in the DFW Metro area on special projects and overflow work. I see the opportunities and challenges of contracting as exciting and always **look forward to the next assignment I have the privilege to undertake.**

CURRENT

Graphic Design Contractor 2014-current
